

The Modern Day House Call

Amy Schiffman, MD

Capital Coordinated Medicine

Kicking it old school – not....

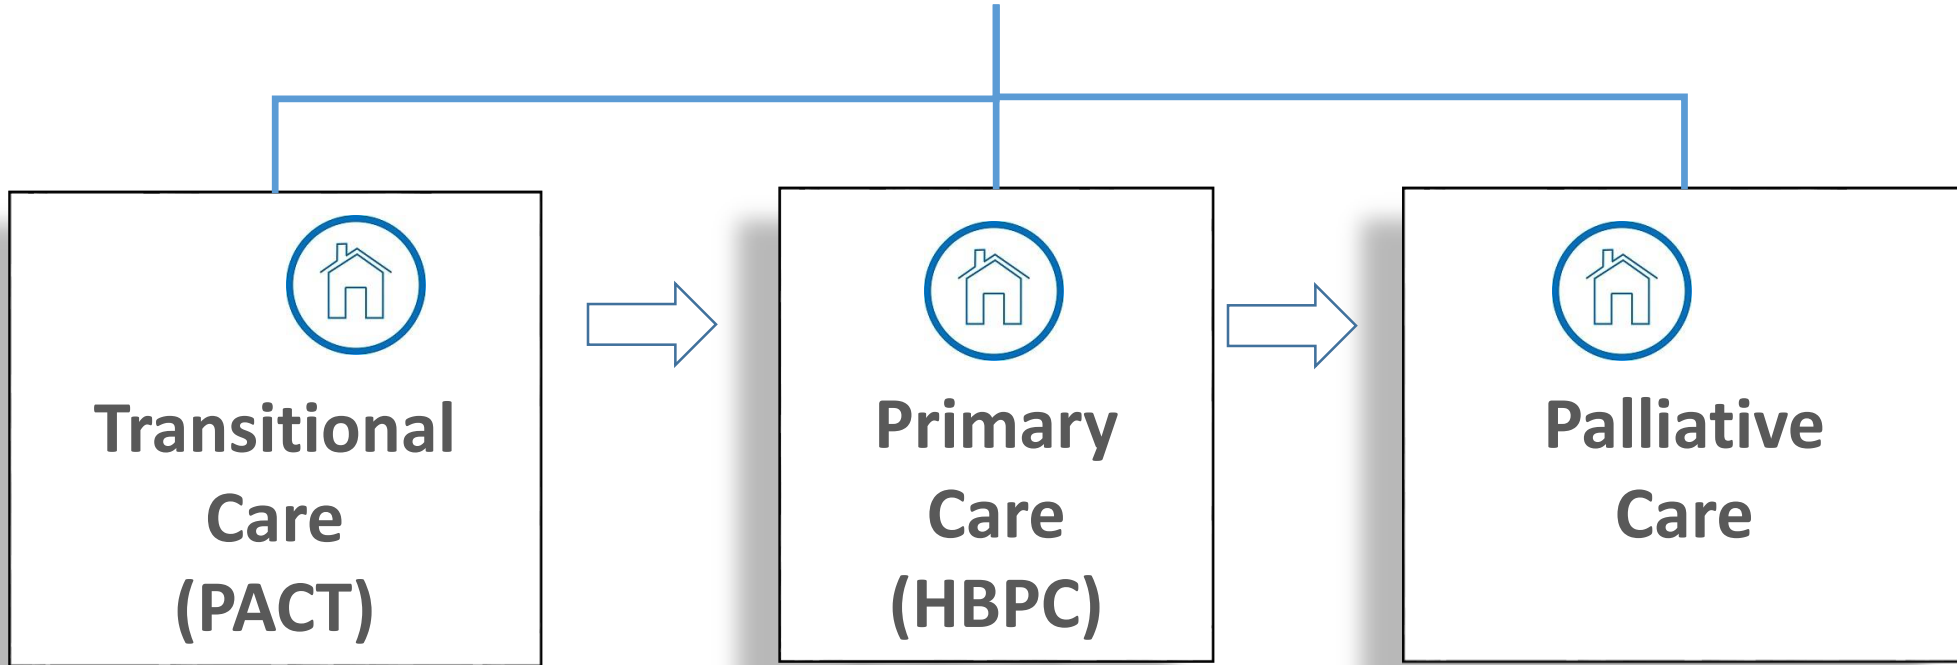

- Not your grandfathers house call
- So much more complicated that
 - Multimorbid
 - Polypharmacy
 - Psychiatric patients
 - Social/economic challenges

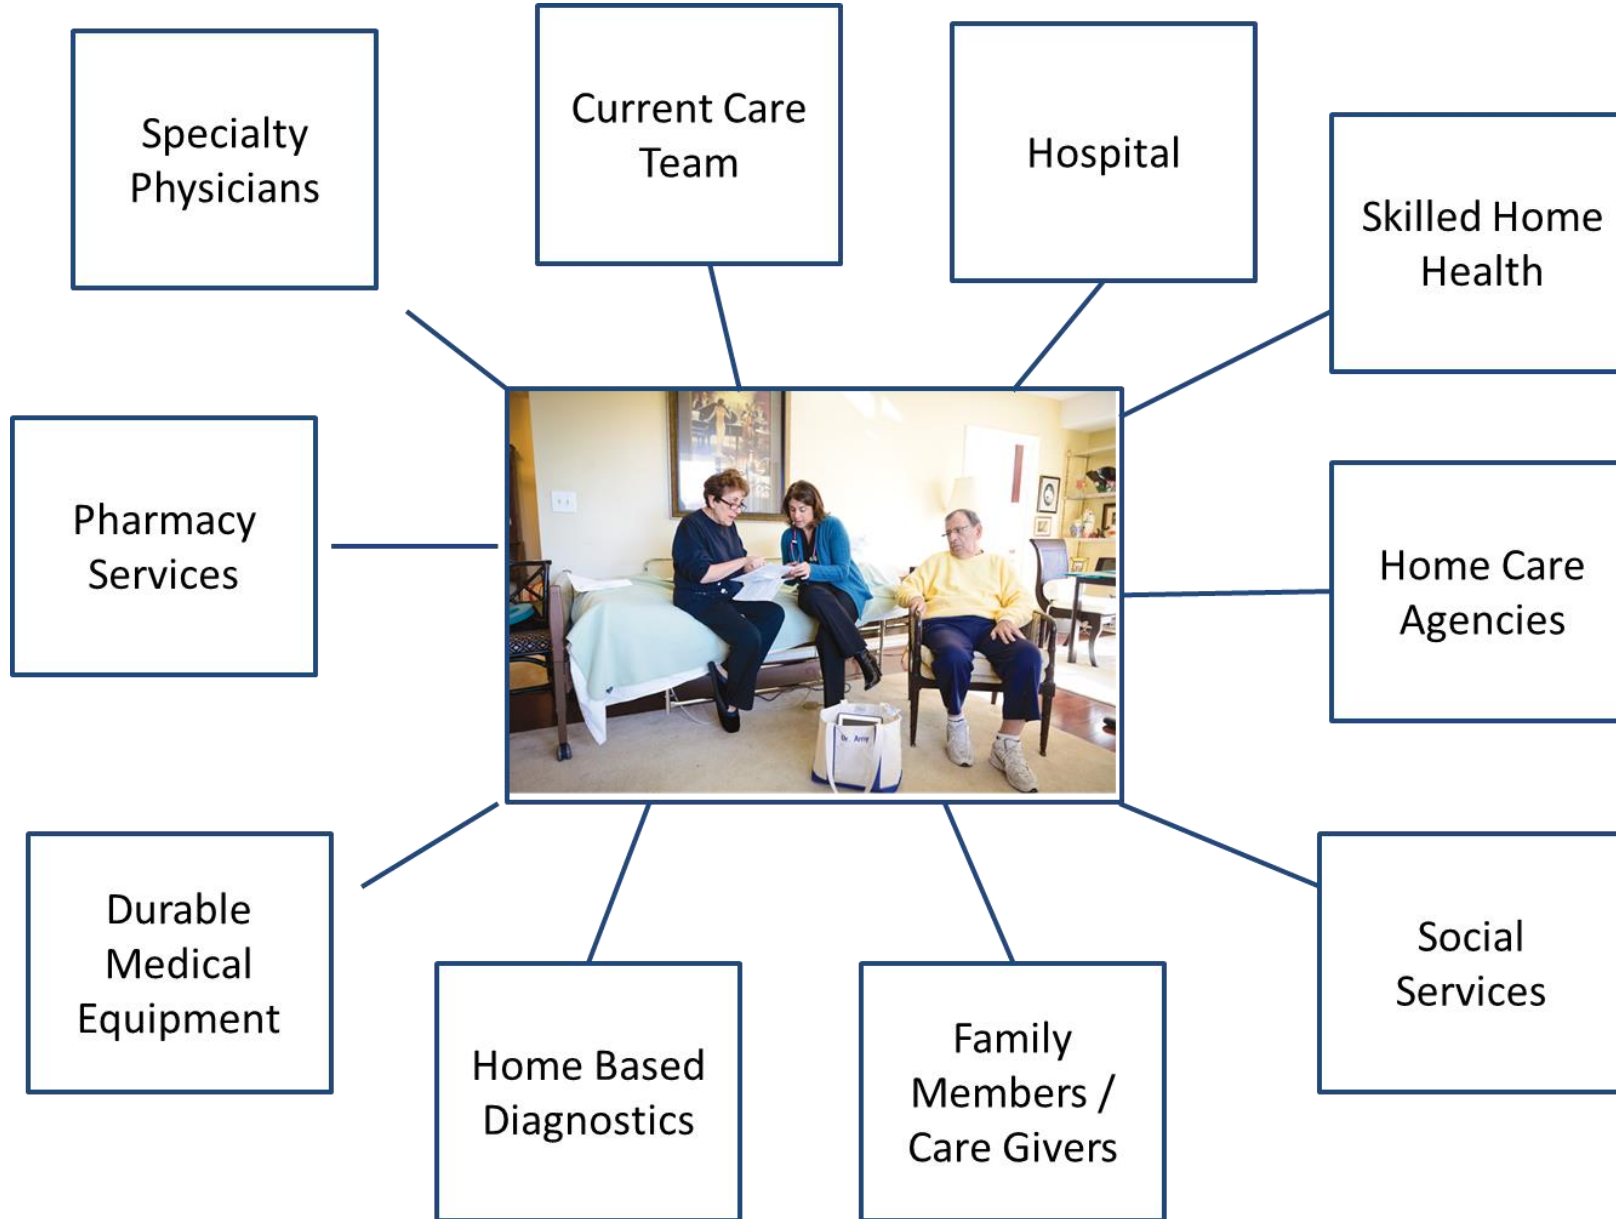

Technology Solves Many Problems

- Documentation
- Communication
- Data Exchange

What is homebound?

- Taxing effort to get out of the house” simultaneous with not really leaving the house except for religious services and occassional family events.
- Dementia
- Walk with walker, cane
- Wheelchair bound
- Bedbound
- Agoraphobia
- Obesity
- Sensory impairment
- Psychiatric problem
